

New BuildingPoint Dealers Established in UK and Ireland

BuildingPoint UK and Ireland Joins the First Fully Dedicated Global Distribution Network for Technologies Spanning the Design-Build-Operate (DBO) Lifecycle

SUNNYVALE, Calif., Sept. 28, 2022—Trimble (NASDAQ: TRMB) announced today that a BuildingPoint™ distribution partner has been established by the KOREC Group in both the United Kingdom and Ireland. KOREC is an established Trimble Geospatial distribution partner. BuildingPoint UK and Ireland joins the growing BuildingPoint partner network that provides focused sales and services with a portfolio of software and hardware solutions for the Design-Build-Operate (DBO) lifecycle of buildings.

BuildingPoint dealers represent Trimble Building Construction Field Solutions—a portfolio of synergistic hardware, software and service offerings that allow users to create and transfer constructible models throughout the DBO lifecycle. Trimble is dedicated to transforming the planning, design, construction and operation of buildings through advanced, accessible, intuitive technologies. Trimble solutions provide an unprecedented capability to improve productivity, schedule adherence and cost discipline through tighter coordination, improved project transparency and collaboration—enabling stakeholders to realize greater agility, efficiency and insight.

With experienced construction professionals in each region, BuildingPoint supports users in achieving the optimal construction technology solution for each project. This support consists of a combination of hardware and software, consulting, virtual design and construction services, personalized training and technical support.

Headquartered in Huntingdon and Dublin with regional offices, BuildingPoint UK and Ireland was formed in September 2022. It will serve architects, engineers, contractors, owners, and occupiers across the DBO lifecycle of a building.

About Trimble Construction

Trimble is developing technology, software and services that drive the digital transformation of construction with solutions that span the entire architecture, engineering and construction (AEC) industry. Empowering teams across the construction lifecycle, Trimble's innovative approach improves coordination and collaboration between stakeholders, teams, phases and processes. Trimble's Connected Construction strategy gives users control of their operations with best-in-class solutions and a common data environment. By automating work and transforming workflows, Trimble is enabling construction professionals to improve productivity, quality, transparency, safety, sustainability and deliver each project with confidence.
